

FR320

4 in 1 - Face, Card,
QR code and pin

Touchless convenient and higher security with face Face recognition reader

Now you can access your door or gate even though both of your hands are full while still verifying your identity at the biometric level. FR320 can be mounted beside a door or mounted on top of the turnstile.

1 Go in faster

Automatic Adaptive Detection Reading (AADR) technology will open up the door ahead of time while you are walking towards it to ensure smoother non-stop traffic during peak hours.

2 Enter with mask

You can lower the security if you have lesser users to enjoy the convenience of entering without taking off your mask.

3 You cannot fake it

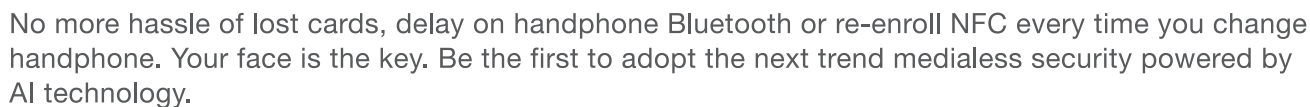

Dual lens use IRSense technology to detect "live face" and rejects printed or displayed photos to ensure real genuine identity.

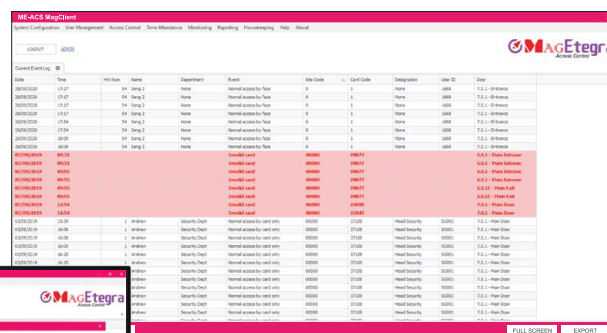

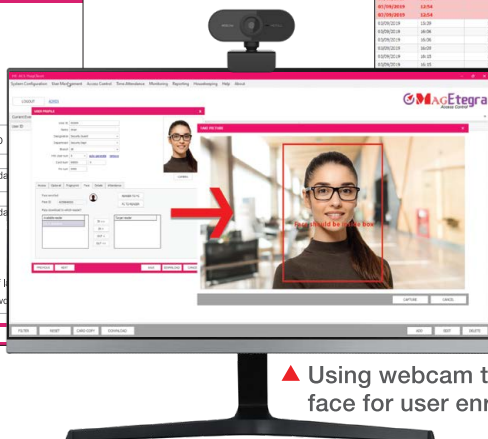

4 Extra wide lighting

Advanced EWL algorithm automatically compensates for a very dim environment or bright backlight to ensure more robust recognition in any situation.

MagEtegra ME-ACS software is simple enough for a small office yet powerful enough to manage the access security system of the entire building. It supports 4 types of different time attendance shifts to cater for fixed, flexible or rotating work schedule within a company.

▲ Events record from multiple readers is centralized into a single view in ME-ACS for faster review, search, filter and reporting.

- ▲ Weekly, yearly and free shift time attendance

- ▲ Using webcam to capture face for user enrollment

For pedestrian gate

12V, 3A switching power supply with
timer card and backup battery

Voltage DC 12V, Current $\leq 20\text{mA}$

User ID/Face Capacity

50,000

Event Record Capacity

500,000

Access Mode

4 in 1 - Face, card, pin or QR code
face + pin, face + card,
face + QRcode

Face recognition speed

< 0.2 sec

Relay Output

Lock relay dry control output
(N.O, N.C and COM)
Alarm relay transistor output (-12V)

Push Button Input

Yes

Comms Interface

TCPIP or WIFI (stability is dependent on wireless signal)

Wiegand Port

Yes, WG26/34 output/input

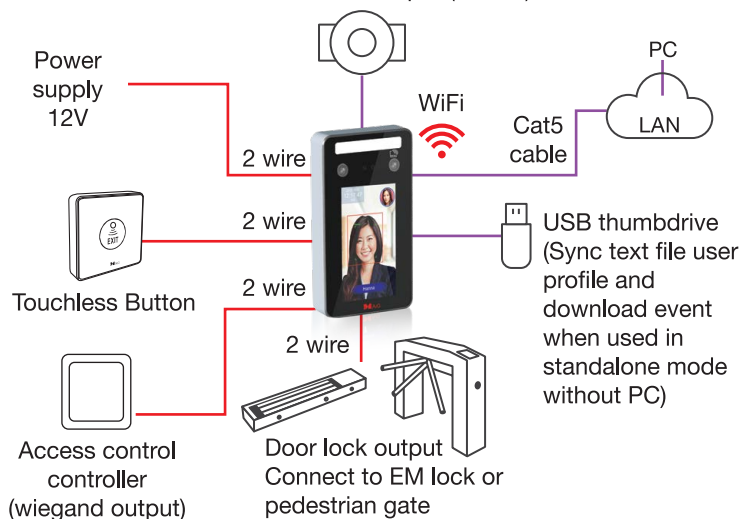

Power Supply

DC12V, 2A

Dimension (LxWxH)

185mm x 110mm x 20mm

External alarm output (buzzer)
