WHY IT MATTERS?

Entrance Management

WYS 1391

1 More convenient with AI

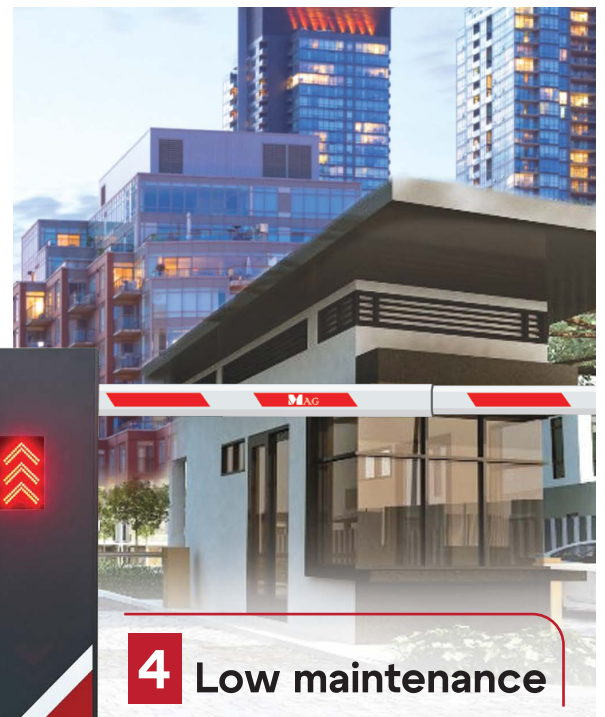

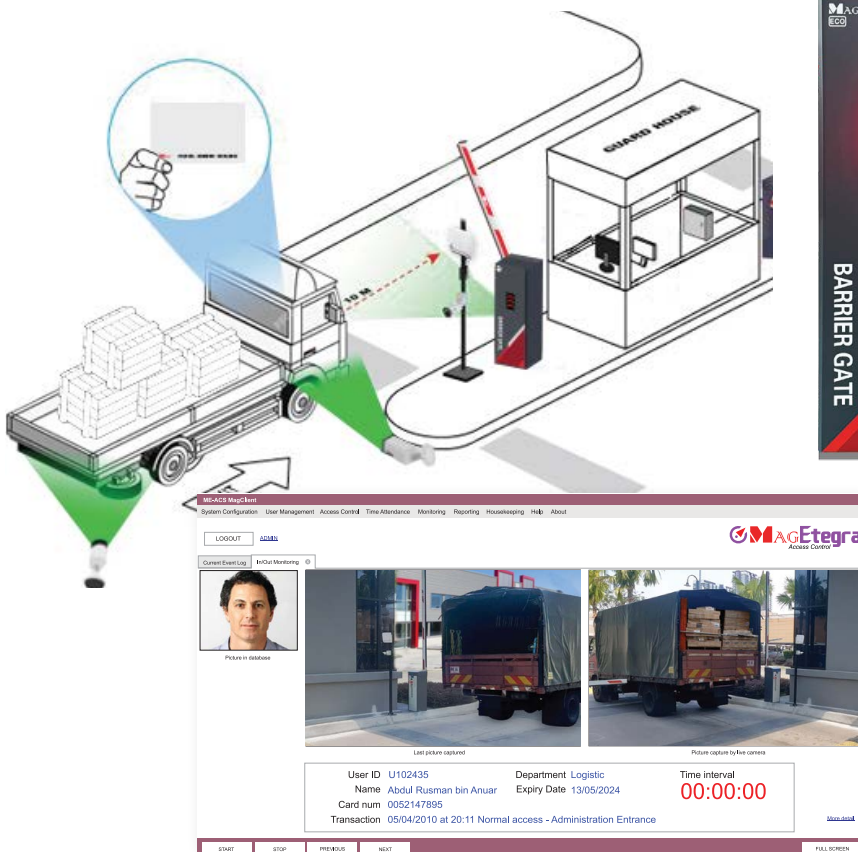

License plate recognition offers a basic security alternative that will fit into your tight budget.

2 You are in control

Our Xclone technology offers maximum security and long-range convenience, simultaneously protecting against unauthorised access by duplicate cards.

3 Faster access

Weatherproof Xclone RFID sticker for seamless pass through without stopping your car.

4 Low maintenance

Spring-free barrier empowered by RedSpeed motor reduce mechanical servicing while staying stylish with minimalist design.

5 Reduce fraud

Live picture capture evidence to prevent sneaking out valuable goods.

6 Filter out unauthorised pedestrian

The Single Lock Anti Reverse (SLAR) feature on our full-height turnstile prevents unauthorised users from cheating by bypassing, climbing over or crawling under. A weatherproof reader is available for the side door.

7 Identify threat faster with AI

IP camera uses AI to alert black listed face profiles, intrusion and cross line threat via E-Map, NVR, CMS and mobile apps so that you can take preventive action earlier.

20 Facility Management

1 Elevate your building impression

Slim contemporary stylish design of our gates and reader to make your entrance lobby, lift and doors looks good.

2 Collect maintenance fees promptly

Integrate with your accounting system to automate access block/unblock helps cultivate healthy payment behaviour that boost your cash flow .

3 No more long queue

Our **AADR** technology can recognize face ahead of time to open the integrated turnstile, flap or swing barrier faster than card and fingerprint access.

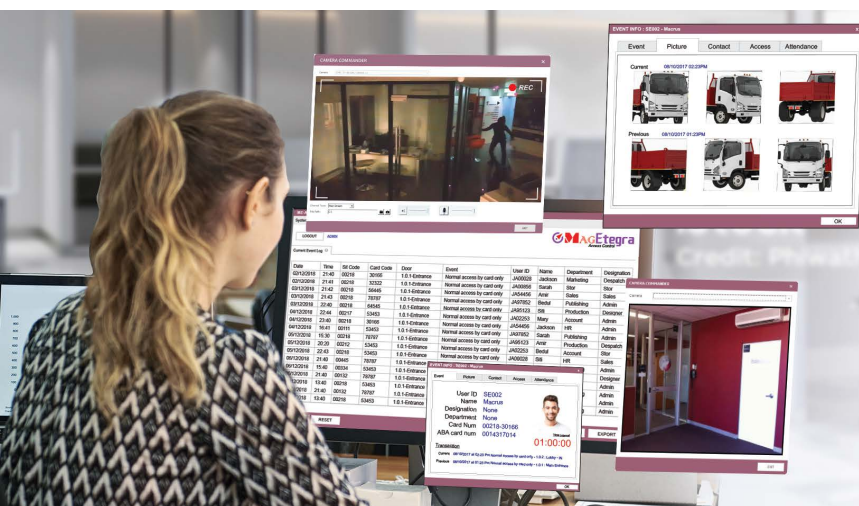

ADM technology reject face at the back to prevent frontgating.

4 Catch better

Advance fast search with captured picture and recorded video from integrated CCTV helps you to identify proof faster.

Increase guard efficiency by verifying against false alarm with CCTV at every critical alarm point via E-Map and Camera Commander.

5 SEE and HEAR in the dark

Dark Knight IP Camera series helps you understand the situation better with additional white light and built-in mic.

6 Faster security

E-map pinpoints the exact location of the door, burglar, fire and IOT alarm with pop up notification to allow guard to respond promptly.

7 It's a matter of life and death

During emergency, Area Control immediately shows the last door location of those still trapped inside to speed up rescue without the hassle of taking manual attendance.

Freely mix and match to see which functions and location most important to you in multiple individual screens.

The screenshot displays the MMS Eterna software interface. At the top, there is a menu bar with options: File, Edit, View, Run, and Help. Below the menu bar, there is a toolbar with icons for various functions. The main window is titled "MMS Eterna" and contains a table of chemical compounds. The table has columns for Name, Date, Size, Formula, CAS#, SMILES, and Properties. The table lists 10 compounds, including 1,2,3,4,5,6-hexachlorocyclohexane, 1,2,3,4,5,6-hexachlorocyclohexene, 1,2,3,4,5,6-hexachlorocyclohexane, 1,2,3,4,5,6-hexachlorocyclohexene, 1,2,3,4,5,6-hexachlorocyclohexane, 1,2,3,4,5,6-hexachlorocyclohexene, 1,2,3,4,5,6-hexachlorocyclohexane, 1,2,3,4,5,6-hexachlorocyclohexene, 1,2,3,4,5,6-hexachlorocyclohexane, and 1,2,3,4,5,6-hexachlorocyclohexene. The table also includes a column for Properties, which lists various chemical properties for each compound.

Name	Date	Size	Formula	CAS#	SMILES	Properties
1,2,3,4,5,6-hexachlorocyclohexane	12/10/2010	128	C ₆ H ₆ Cl ₆	108-90-7	ClC1(Cl)CC(Cl)CC(Cl)CC1(Cl)Cl	1,2,3,4,5,6-hexachlorocyclohexane

3 Unit Management

1 Increase productivity while staying secured

There are 4 types of attendance shift to cater different working style in your organization.

2 Prevent break in

Notify you and scare off intruder before they break in. Paradox BlueEye mobile app allowed you to bypass all broken sensor (open zone) and remain secured until it is fixed.

WHERE TO USE OUR SOLUTION?

Residential

Create a secure, convenient and seamless experience from the guardhouse to your doorstep. This will motivate prompt maintenance fee collection, ensuring a well-maintained facility that enhances resident satisfaction and increases the property's rental and appreciation value.

Industrial

Transform your industrial space by safeguarding employees, stock, property, and assets. Simultaneously, boost efficiency, productivity and attendance discipline through the digitization of building security. This will ensure measurable results for continuous improvement.

Commercial

Enhance your commercial space with timely maintenance fee collection, enhanced security and improved operational performance. Having the right system will increase efficiency, productivity and attendance discipline.
